Shows difference between receipt and payment account and income and expenditure account. This paper helps to identify the general terms used in not for profit organization.

Keywords: Capitalized, Donation, Entrance fee, Fund raising, Grants, Legacy, Subscription.

I. INTRODUCTION

A non profit organization is a social, legal and accounting entity that is operates for the welfare of society as a whole. NFPOs are an essential part of every community. It is not for providing benefit to a sole proprietor or a group of partner or shareholder. They exist to provide benefits to members of the community. Operations of Non Profit Organizations are based on the receipt of subscription, grants, donations, fundraising as the principal income source. In some cases, NFPOs uses their income to conduct trading activities and profit will reserve for members welfare. These NFPOs are not-for-profit basis, Have to adopt good financial management practices will ensure that there are adequate resources to achieve their objectives, remain solvent and continue the community for long period.

Although profitability is not the core purpose of an NFPO, it is necessary to ensure that the NFPO is sustainable, properly capitalized and funded. It would be fair to say that NFPOs need to ensure they have adequate cash flow to support their operations over the duration of their lives and contribute to meet their goals. It has to discuss about the financial statement of Not For Profit Organisation.

II. NON PROFIT ORGANIZATIONS CAN BROADLY BE DIVIDED INTO THREE CATEGORIES

1. Organization work for the welfare of their members e.g. clubs, staff associations, residents associations etc.
2. Charitable institutions are hospitals, educational institutions etc.
3. Professional associations are Chartered Accountants, Tax consultant, Advocates, Doctors, etc.

III. METHODOLOGIES

We made a conceptual paper on financial statement of non profit organization. The data will be collected from secondary sources such as Journals, Books, Online websites and so on.

V. FINANCIAL STATEMENTS

Financial statement is a formal record of the financial position and activities of business, person or other entity. They don’t have to sell or purchase of goods and not to receive bills of exchange nor to make credit transactions. Most of Non Profit Organization are making cash transactions, so they have to maintain detail books of accounts like profit concerns. However NFPO’s are maintain cash book and minimum number of books which required for their purposes. For example Register of fee should be maintain in case of school or college, Register of members and minute books are maintain in case of club or society. The Non Profit Organization also prepare it’s final accounts at end of the accounting year. The financial statement of NFPOs.

5.1. Receipts and Payment Accounts
5.2. Income and Expenditure
5.3. Balance Sheet

5.1. Receipts and Payment Accounts:
Receipts and Payment Accounts is a summary of cash transactions which have take place during the accounting period. It is an elementary form of account is commonly adopted by non profit concerns for presenting periodical results of work. The cash receipts and cash payments are recorded in cash book. It has recorded in chronological order. The receipts and payments accounts is a summary of total cash receipts and cash payments made under different heads during a particular period of time. Receipts and Payment Accounts consists of opening and closing balances of cash. The cash receipt are recorded in left side of account and cash payments are recorded in right side of account. The same transactions are appear in cash book.

5.1.1. Features of Receipts and Payment Account:
- It is a real account.
- It is similar to the cash book, the cash and bank items are merged in a single column. The contra entry between cash and bank are removed.
- The receipts and payment account is starts with opening balance of cash and bank and ends with closing balances of cash and bank.
- The receipts and payment account recorded with all types of receipts and payments irrespective of nature, it record capital or revenue receipts and payment.
- It record all cash and bank receipts and payments, whether they related to current, past or future periods.
- All the receipts are debited and payments are credited.
- It does not show any surplus or deficit, it is a cash trial.

5.2. Income and Expenditure Account
Income and Expenditure Account is same as to the profit and loss account of business. This account is mostly adopted by the non profit organization and accrual principle is required for preparing this account. Only revenue nature of items recorded in Income and Expenditure Account. For the preparation of account have to adjust the outstanding and advance items before these are included in Income and Expenditure Account.

5.2.1. Features of Income and Expenditure Account
- It is a nominal account.
- The income and expenditure account is prepared at the end of financial year to know the surplus or deficit at that period.
- It is prepared for matching expenses with revenue of that period.
- All the income and gains are record on credit side and expenses and losses are record on debit side of account.
- Account allowed to record both cash and non cash transactions.
- All capital expenditure and incomes are not recorded, only current year income and expenses are considered.
- The balance of account shows either the excess of income over expenditure (surplus) or the excess of expenditure over income (deficit).

5.3. Balance Sheet
Balance sheet is a statement includes assets and liabilities of an accounting at particular period. In case of non profit organization the balance sheet is prepared at the end of the accounting year after preparation of income and expenditure account. Excess of assets over liabilities is referred as capital fund. Amount contributed by members called capital
